

## REMARKS

This is in response to the Office Action dated October 18, 2006 in which a requirement for restriction has been applied.

The Examiner has issued a restriction to one of the following inventions under 35 U.S.C. 121:

- I. Claims 1-11 and 15-16, drawn to a method for substantively imparting fragrance and/or substantially eliminating malodours, classified in class 512, subclass 1.
- II. Claim 12, drawn to a microcapsule composition, classified in class 512, subclass 4.
- III. Claims 13, 14 and 17-21, drawn to a slurry, classified in class 512, subclass 4.

In response to this Restriction Applicants elect Group III directed to Claims 13, 14 and 17-21 without traverse and reserve the right to file divisional application directed to the non-elected subject matter.

Early and favorable consideration of the pending claims is earnestly solicited.

Respectfully submitted,
